Tubagus Rivan Maulana Sidiq

Software Developer

tbrivan22@gmail.com +62 81210903492 Bogor, Indonesia Portfolio Tubagus Rivan TbRivan

PROFILE

Highly motivated **Software Developer** with 2+ years of experience designing and maintaining scalable software solutions. Proficient in multiple programming languages and frameworks, with expertise in problem-solving, algorithm design, and software architecture. Passionate about writing clean, efficient code and collaborating with cross-functional teams to deliver high-quality products. Continuously learning and adapting to new technologies in the ever-evolving tech landscape.

PROFESSIONAL EXPERIENCE

HMI Engineer 2018 – 2021
PT. Nijimaru Kemasindo Sentosa Jakarta, Indonesia
- Work closely with a team of Engineers to ensure that the HMI are user-friendly and properly integrated with the SCADA Systems.
- Assist Engineers for Testing and Debugging HMI Systems to ensure the system are reliable and efficient.
- Responsible for the full development cycle to implement factory atomization to monitor the whole field in HMI.
- Develop HMI Systems, and Engineering PLC Logic.
- Ensuring quality control by providing detailed documentation.

Frontend Developer Intern 2022
PT. Abbauf Mulia Konsultan Teknologi Depok, Indonesia
- Design and Develop visually appealing frontend interface for WebGIS intelligence.
- Collaborate with Backend team to translate software requirements into functional high performance web experiences.
- Utilize programming skills in HTML, CSS and JavaScript.
- Continuously optimize and improve application functionality and user experience through testing and iteration.

Software Developer 2023 – present
PT. Inovasi Solusi Internasional Jakarta, Indonesia
- Designed and developed scalable web applications using React and Node js, improving system performance by 20%.
- Optimized database queries and refactoring codes, reducing response times by 30% and improving overall application efficiency.
- Integrated third-party APIs and developed RESTful services to enhance application functionality.
- Debugged and resolved software defects, improving application stability and user experience.
- Conducted unit testing and integration testing to ensure code quality and reliability.
- Participate in Agile/Scrum processes, including sprint planning, daily stand-ups, and retrospectives.

EDUCATION

Computer Science 2019 – 2024
Universitas Pakuan Bogor, Indonesia
GPA: 3.59

Computer and Network Engineering 2015 – 2018
SMK Amaliah 1 Ciawi Bogor, Indonesia

SKILLS

Hard Skills :
Javascript, Typescript, Golang, React, NextJs, NestJs, Mysql, MongoDb, Redis, Docker, Kubernetes

Soft Skills :
Problem solving, Communication, Teamwork and Collaboration, Attention to Detail, Adaptability
